

FadeNot XFilm

Special FX Lighting Manufactures FadeNot XFilm Theatrical Gel

High temperature PEN film is color coated with Special FX Lighting's FadeNot formula to manufacture FadeNot XFilm. This theatrical gel is most suited to applications that require a long life expendable such as theatre follow spots. FadeNot XFilm can last up to 30 times longer than gel that fades (turns clear). FadeNot XFilm is not suitable for long term wet location use.

FadeNot XFilm is supplied in 20"x24" sheets, or by the cut.

Specify: FadeNot XFilm. **Specify:** Full sheets or cuts.

Color: Any color or combination of colors from any theatrical or dichroic color media can be specified. We can match provided color samples. We can match specified kelvin shift color corrections. To aid in color decision making, Special FX recommends mocking up with color.

Order Lead-time Average order lead-time is four weeks from receipt of Purchase Order. Exact lead times can be provided upon order receipt.
